MEDICAL ASSESSMENT SERVICE

This assessment is required by the Curateur Public du Québec as part of requesting the institution of a tutorship to a person of full age or a protection mandate homologation

This process can seem long, complicated and hard to go through. It's true. But let's not forget that the legislator prepared these steps for a reason: to insured the protection of a vulnerable person. It is important to understand that once a judge rules that an individual is incapacitated, then that person loses their right to make decisions regarding their healthcare and financial

How does it work?
